Dear Hagen,

I am writing this to let you know that your Pet Cargo crate saved my dog's life. Last week on our way to the vet, we were in a terrible accident. I was driving our new F-150 Ford Supercrew when we hit a patch of black ice on a bridge. The truck spun out of control and rolled down a 15 foot embankment. "Jersey", our 8 month old Shiloh Shepherd was in her new Pet Cargo 800.

The carrier was secured at the corners with bungee cords to the bed of the pick-up. When the truck flipped over - the crate stayed in the bed, preventing her from falling out and landing under the truck, where she surely would have been crushed. Although the crate was cracked and broken - it did its job! All the corner points held tight and did not break away, which all the firemen thought was amazing! Jersey is over 70 pounds and when she rolled on to the roof of the crate, it put a lot of pressure on those straps!

Nobody has any doubt that she is alive today because of her crate and how it was designed. The truck was a complete write-off...so was the crate, but we don't care because the truck saved me and my kids from injury and the crate saved my puppy! We will have our new truck soon and will be purchasing another PetCargo 800 because it is the only crate on the market that I have found, that can be tightly secured in place. Thank you for such a wonderful product!!

Sincerely,

Cheryl Bender & Jersey
